

# MedLink Kit Refurbishment Program

*The Best Solution to Keep Your Medical Supplies Current*

Do you know if all of the supplies in your onboard medical kit are current and up-to-date? If not, chances are some of the supplies may have expired and are no longer safe for use.

MedLink is an industry leader in remote medical equipment, education and expertise, and recognizes the importance of regular medical kit maintenance. When you send your kit back to MedLink for refurbishment you can be confident that your kit will be up to the latest industry standards.

## MedLink's Refurbishment Program Covers:

- First Responder Kit
- Advanced Medical Kit
- Ship's Medicine Chest
- Maritime Upgrade Kit
- Ship to Shore Kit

**MedLink**  
A SERVICE OF MEDAIRE, INC.

## Kit Refurbishment Process

When your vessel is docked in a United States port, simply return the medical kit to MedLink, where the contents will be replaced and returned to you within 5 business days of receipt at the refurbishment facility.

### The refurbishment process includes:

- Complete reconditioning of the kit
- Replacement of utilized, missing or damaged supplies
- Replacement of contents that are expired or will expire within 12 months
- Replacement of missing or damaged components (including bag)
- Updated content card and exterior tag displaying the kit serial number and expiration date

## ISO 9001:2000 Certified

Because MedLink is committed to providing the highest standards of care, we have been ISO 9001:2000 certified since 2001. Through the ISO process, our company runs more efficiently, and your clients benefit from more consistent service.
